

Becoming a Member of Micah Global

For any vision to be realised a group of committed people are needed to be the engine that drives us forward. Micah has chosen a membership model for a number of reasons:

1. Membership forms a core group of people who commit to share, learn, work, advocate and serve together.
2. All activities, whether this is networking events or advocacy campaigns, require a group of people to unite behind a shared vision to enable these initiatives to impact our world.
3. In order to finance the shared aims we need to have a level of income that is pooled and used effectively.
4. To ensure equality and equity for all members, annual membership contributions are not set as a specific fee, but rather each member is invited to prayerfully consider within their capacity what they can contribute.
5. Mutual expectations:
 - a. Members join because they believe in the vision of Micah but also because they want to share their gifts and experiences to support an integrated response to transforming mission.
 - b. Micah Secretariat, regional coordination groups and national coordination committees are formed to action the shared vision and aims of Micah Global.
6. Ensuring a platform where everyone is treated the same. Micah seeks to ensure - whether a member is a large aid organisation or a small national ministry – that each person has the same access and opportunity as the other. This will mean at times giving extra support to enable engagement of some members, and we thank the larger members for sharing resources to support one another.
7. The united voice of many can and does impact policy and encourage change for good at all levels of society. United, we can make a difference as we address issues of poverty, injustice and conflict.

There are three types of membership:

- 1) **Full membership:** this is for aid organisations, mission organisations, local churches and colleges (training institutions) who are directly engaged in transforming mission.
- 2) **Associate membership:** this is for networks, alliances, denominations, coalitions who want to link with Micah in solidarity and reciprocity.
- 3) **Individual membership:** for individuals who are either in organisations who are not members and yet want to actively support Micah, or who want a deeper level of engagement with Micah.

How to apply to become a member

Download a membership [application form](#) from the website and once completed send to info@micahnetwork.org.
